EVERY DAY LIFE
AND INVITES
YOU IN TO AN
ENCHANTING
WONDERLAND.

Each villa has a private pool and is designed for guests to completely unwind. Keemala is a member of Small Luxury Hotels of the World, recognised for their collection of boutique hotels.

CONCEPT

Keemala harnesses and celebrates the culture of four fictitious Phuket tribes, the 'Pa-Ta-Pea' (Earth), the 'Khon-Jorn' (Wanderers), the 'We-Ha' (Sky), and the 'Rung-Nok' (Nest) people. Their way of life is infused

into the overall philosophy; the spa, holistic treatments, activities, gastronomy and villa designs all derive from the tribal attributes, resulting in a magical experience for guests.

LOCATION

Positioned in the woodlands and nestled well away from the crowds on Phuket's west coast and overlooking Kamala Village. Keemala is close enough to the liveliness of Patong, yet far enough apart to take time to enjoy the tranquil surroundings of the rainforest.

Inspired by the 'PA-TA-PEA' CLAN (EARTH) who consisted of farmers, fishermen, gardeners, carpenters, black-smiths, and miners. They believed that a connection to earth would bring them health benefits. Not only would they build their homes on ground level, they'd also incorporate earth into their walls, roofs and furniture, even the beds they slept on were made from soil and clay.

The 'KHON-JORN' CLAN (WANDERERS) were adventurous people consisting of foragers, herders, performers, traders, and explorers, who spent their time trading goods with other tribes they'd encounter on their journeys. Due to their nomadic ways they'd prefer to construct semi-permanent homes, so they could easily move on, hence we celebrate them with our design.

The 'WE-HA' CLAN (SKY) was a group who built their homes elevated from the ground and in the tree tops in order to obtain better creativity and liberty. The clan included the talents of creators, architects, inventors, healers and geologists. The villas give the impression that they are suspended from the trees with some furniture also using suspension as a feature.

The 'RUNG-NOK' CLAN (NEST) members enjoyed an opulent lifestyle. Their craving for exclusivity resulted in the woven tangle of a birds nest design. This clan was thought to be more superior intellectually and comprised of artists, musicians, poets, philosophers and astrologers. They would bathe under the moonlight believing that their souls would be replenished, thus the inspiration for these villas.
